SEE, HEAR & TALK TO YOUR BABY FROM ANYWHERE IN YOUR HOME

babyCam nursery offers a simple, easy to use method of seeing, hearing and talking to your baby from anywhere in the home. Includes a compact and versatile wireless camera from which a clear, full colour video picture and sound are transmitted to the large 7" (17.5cm) screen for viewing.

The camera also incorporates a night light to provide a reassuring glow in the bedroom or nursery. If darkness is preferred, then the camera also incorporates a night vision feature allowing you to see your baby in the dark.

Easy to use

Step 1: Position the camera to overlook your baby's cot and switch on the camera.

Step 2: Settle down in the living room or bedroom and switch on the wireless screen.

Step 3: Set the microphone/speaker settings as desired and keep watch from wherever you are!

What's inside

1x wireless camera, 1x wireless screen, 2x power adapters, screws & wall plugs (for wall mounting), instruction manual.
