**VAIO**

**Power in motion**  
Boost your productivity  
with new VAIO™ S Series

## VAIO™ S Series

**Designed for power.  
Designed for mobility.**

Substance meets style with this lightweight high performance laptop. The new VAIO™ S Series is designed for business with the latest powerful Intel® processor, high mobility, professional appearance and the stamina to work to your schedule. With up to 14 hours of battery life, it goes to work when you do, and won't stop until you stop.

VAIO recommends Windows® 7.

## Hard working, highly portable laptop

We designed the VAIO™ S Series to be a reliable partner to your working day. Lightweight yet powerful, it's highly portable, but built to work as hard, and for as long, as you do.

With slim styling, weighing in at 1.7kg, it won't hold you back either. And thanks to the magnesium alloy body, it's tough as well.

## Built to impress

### Thin and light 'full flat' design

Just over 23mm thin, this laptop is all about total mobility. Thinner and lighter than any previous 13" VAIO™ laptop and just as strong, the new design is full flat with no bulge from the lithium polymer battery. Even the colour of the edge expresses thinness while a concealed hinge enhances simplicity around the display.

### Efficient performance

Equipped with the latest powerful Intel® Core™ processors, combined with a choice of either SSD or HDD storage and smooth, efficient hybrid HD graphics, it really has been built for sustained performance.

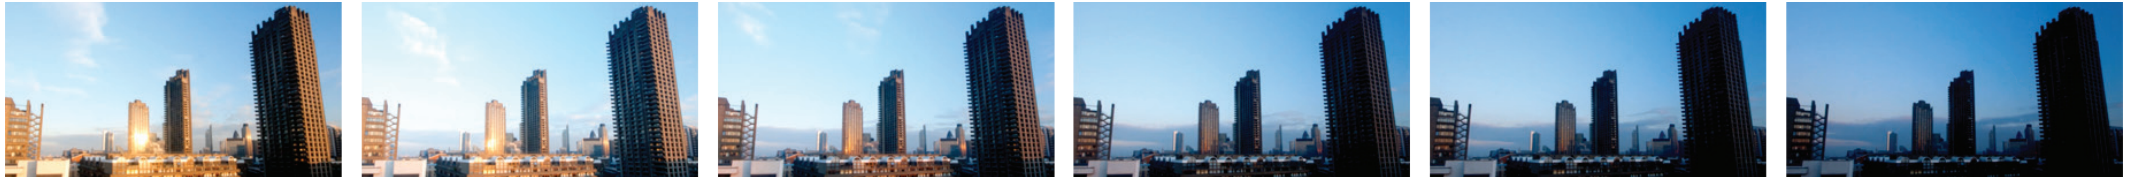

### Prestige materials

Weight is kept low by using premium materials for the laptop lid and palmrest. VAIO™ S Series uses a tough, lightweight magnesium alloy and also features a single-piece milled aluminium palmrest. Combining these materials adds strength and durability - essential attributes for any ultra-portable PC.

## Built to outperform

- **Slim and light** with elegant new 'full flat' design for enhanced mobility and superior robustness
- **Improved stamina** with new 14-hour smart battery concept
- **13.3" VAIO™ Display Plus** and HD graphics
- **Dynamic Hybrid Graphic System** for balanced stamina and performance
- **Instant start up** and quick web access for increased productivity
- **Ambient light sensor** allows the screen and backlight keyboard to adapt automatically
- **High-speed wireless connectivity** with VAIO™ everywar 3G mobile broadband and WWAN
- **Video chat** with colleagues and clients using the integrated clear and crisp web camera
- **Anti-reflection screen** with higher contrast for enhanced viewing comfort
- **Multi gesture touchpad** for easy control and navigation of multimedia files
- **Bluetooth® connectivity** for easy cable-free communication with a range of devices

## Designed to work in the real world

### Safe and secure

Safeguard your intellectual property with fingerprint swipe sensor and Trusted™ Platform Module (TPM) technology to keep data protected from unauthorised access. In addition, advanced HDD protection keeps your hard drive and work safe from accidental falls.

### Stamina for the long race

VAIO™ S Series introduces a smart new battery concept that lets you keep working day and night without a pause. The internal lithium polymer battery provides power for up to 7 hours on-the-go computing (in Stamina mode).

### Get online almost instantly

The one touch QUICK WEB button lets you power up and in seconds, so you can get online without having to fully boot up the laptop.

### Something extra in reserve

Partner the internal battery with a second thin, flat optional lithium polymer extended battery and boost battery life up to 14 hours. Plus, this second battery attaches without having to switch off and can be charged separately.

### Broadband as mobile as you

Keep in touch with clients and colleagues with optional VAIO™ everywair 3G mobile broadband, giving you the freedom to check emails, go online and video conference over 3G mobile phone networks.

### Intelligent ambient light settings

The built-in Ambient light sensor automatically adjusts screen brightness and keyboard backlighting. This not only saves battery life but also saves you from having to manually adjust an overly bright screen while working in dark meeting rooms or on over-night flights.

### Ready when you are

Power up the Windows® 7 operating system faster than ever with Fast Boot and get working quicker. Increase productivity when you're on the go. Ideal for those short journeys or between meetings when you just need to check emails, fine tune documents or check a file.

### Graphics power on demand

The Dynamic Hybrid Graphic System intelligently selects the right graphics mode for the job at hand. Choosing between high graphics performance using the AMD Radeon™ HD card or long battery life with the second built in internal graphics processor.

### Built in IT assistance

Because you can't take the technical support department with you, VAIO™ Care is built in to every VAIO™ S Series. Press the ASSIST button for instant access to powerful diagnostic software that helps maintain and troubleshoot your IT issues on the spot.

- With Windows®7 Professional, networking is simple, with or without a server. Improved networking options include Remote Desktop Host, HomeGroup and Domain Join
- Get more done - minimise or maximise windows, or arrange them side by side, with just a keystroke or a mouse gesture using Windows 7 Aero® Enhancements (Snap, Peek, Shake)
- Windows®7 Professional allows files and folders to be Encrypted. Helping protect confidential information ranging from customer information to financial data

## The perfect business partners

### SB1V9E

- Intel® Core™ i5 processor
- AMD Radeon™ graphics
- 500GB Hard Disk Drive
- Fingerprint swipe access sensor
- Advanced HDD protection
- Up to 14-hour smart battery
- 13.3" VAIO™ Display Plus (16:9) aspect ratio
- Dynamic Hybrid Graphic System
- Ambient light sensor
- VAIO™ everywair 3G mobile broadband
- Premium magnesium alloy lid

### Connectivity

- WLAN 802.11b/g/n
- 3G WWAN
- Bluetooth® 2.1
- Hi-Speed USB 2.0 (x2)
- SuperSpeed USB 3.0 (x1)

### SB1H7E

- Intel® Core™ i7 processor
- 1 GB graphics
- 128GB SSD Flash Drive
- Fingerprint swipe access sensor
- Advanced HDD protection
- Up to 14-hour smart battery
- 13.3" VAIO™ Display Plus (16:9) aspect ratio
- Dynamic Hybrid Graphic System
- Ambient light sensor
- VAIO™ everywair 3G mobile broadband
- Premium magnesium alloy lid

### Dimensions

224.5 x 23.9 x 331 mm (approx.)

### Weight

Approx. 1.75kg  
(with standard internal battery)

## Accessories

### Slip Cover

Stylish slip cover in genuine leather for easy carriage of your VAIO™ S Series – can be used with extended battery.

### Docking Station

Enjoy clip-in, clip-out convenience with this docking station featuring a range of interfaces including VGA output, DVI-D output, 4 USB ports and Gigabit Ethernet LAN connectivity. New design allows you to attach your S Series with the extended battery.

### AC Adapter

This new AC Stick adapter includes 2 USB ports so you can conveniently charge any USB device on the go. It's slim, light and comes supplied in a handy pocket case for easy travelling.

### Extended Battery

Work and play longer on the move with this new extended Lithium-Ion battery and charger.

**2** YEAR  
WARRANTY

Specifications and features vary by model.
