

Micro HDMI® to VGA Adapter Converter with Audio for Smartphones / Ultrabooks / Tablets - 1920x1200

StarTech ID: MCHD2VGAA2

The MCHD2VGAA2 Micro HDMI® to VGA Video Adapter enables you to connect a Smartphone or tablet that outputs content through a Micro HDMI connector to a VGA-capable display device (television, monitor, projector), and also offers discrete 2-channel analog audio output from the Micro HDMI® source. The Micro HDMI to VGA adapter is intended for displaying user generated content such as presentations, documents, and work sheets onto a VGA projector or monitor.

This versatile adapter supports high definition output, including 1080p for HDTV connections, and up to 1920x1200 (WUXGA) for computer VGA monitors.

The MCHD2VGAA2 Micro HDMI® to VGA Video Adapter is backed by 2-year warranty and free lifetime technical support.

Applications

- Connect your smartphone or tablet to a VGA projector or display in boardrooms, hotel rooms, in the office, or at home

Features

- Supports output resolutions to a PC monitor or projector up to 1920x1200 (WUXGA), HDTV resolutions up to 1080p
- Easy to use with no software required
- Compact, lightweight, and portable design
- Supported on any VGA display, including televisions and projectors
