

Replace your desktop to business class

Tecra **Z50-C**-10M

The 39.6 cm (15.6") Tecra Z50-C is a high class desktop replacement. Built to the standard you'd expect from Toshiba's Z-series, it empowers you to achieve more. With a full-size, backlit keyboard, you can get things done in comfort at any time of day – in any light conditions. This usability extends to the non-reflective, high brightness, Full HD IPS screen, which shows every detail in vibrant colour – for a full view of all your work, and all your media. What's more, with two-factor authentication, offered by either fingerprint recognition or SmartCard reader, the Tecra Z50-C is easy to access in the right hands, and almost impenetrable in the wrong ones – keeping your business-critical data secure. Then, once you've been authorised, the device gives you everything you need in an instant, thanks to the Intel® Wi-Fi, LAN capability, optional WWAN, and four USB 3.0 ports. Boosted by a long lifespan and backed by our Reliability Guarantee – as well as a host of features that make it easy to integrate – the Tecra Z50-C is an outstanding investment, straight out of the box.
