## INFORMATION

Nyth meets the demands of MMO play with deep button modularity that fluidly transitions into a MOBA or FPS master tool with ease. Its near boundless customization extends its use far past the competition. No matter the genre or taste, its 3D printed catalogue of side-parts and buttons joined with an expertly engineered foundation combine to make a revolutionary device that serves the imagination, creativity and high standards of gamers today.

### ERGONOMIC SIDEGRIPS

Choose from chilled out palm grip or action packed claw grip with two super ergonomic hotswappable sidegrips.

### MODULAR THUMB ZONE

The Nyth features an evolutionary modular thumb zone where you can individually place up to 12 tactile mechanical buttons.

### ROCCAT™ SWARM

Swarm is the software incarnation of ROCCAT's future ready philosophy. It'll cover you for all relevant gaming platforms and devices.
