OKI A4 Desktop Colour Printers - putting you in control of your printing

Fast, professional quality colour printers that small and medium sized businesses can rely upon to deliver consistently over and over again

Perfect for busy organisations, they offer maximum return on investment with high efficiency, high capacity consumables and many other cost saving features.

No need to compromise on high quality output

These OKI A4 desktop colour printers put you in control of your printing, with high quality output and flexible media handling. In addition OKI's comprehensive software tools allow you to monitor and manage your printers and print usage across your network.

Compact, ergonomic and energy efficient, these models use award winning digital LED technology to provide fast, reliable, High Definition colour output. OKI are pioneers of LED printing technology and have been delivering sharper, more vibrant colour printing for over 20 years.

With a range of features as standard, including double-sided printing, network ready connection, print speeds of up to 30ppm, as well as high capacity consumables and you have printers that offer great value for money alongside reduced ongoing costs.

In-house printing that saves time and money

The use of High Definition digital LED technology achieves a superior level of print quality. This, combined with flexible media handling and OKI's unique Template Manager, means that small to medium sized businesses can now create and print a wide variety of documents and marketing materials in-house. These include business cards,

CD/DVD labels, leaflets, presentations and banners up to 1320mm.

Designed with energy efficiency in mind

The Auto-Off mode reduces power consumption by automatically powering off the device after periods of non-use.

Reliability you can depend upon

OKI printers are inherently more reliable due to LED technology which uses fewer moving parts. This means that we can offer a 3-year warranty on these models, giving you complete peace of mind.

Key Features

Easy-to-use control panel

The easy to use control panel guides you intuitively through menus.

Reduce paper usage with duplex printing

Standard automatic double-sided printing up to 176gsm, enables production of professional quality documents and reduces paper usage.

Reduce energy consumption with Auto-Off mode

Auto-Off mode ensures lower electricity usage and reduces carbon footprint.

Flexible paper handling

The paper tray is easily accessible and holds up to 250 sheets of paper, which can be extended to 880 sheets through the addition of a second paper tray.

Higher capacity consumables for less user intervention

Consumables are easy to access and simple to replace. High capacity toner cartridges and long life drums* reduce user interventions and lower total cost of ownership.

100-sheet multi-purpose tray and face up exit tray

Take advantage of the flat paper path and print banners up to 1320mm long on media up to 220gsm from the convenient multi-purpose tray.

Smarter printing with OKI

The C511 and C531 are the perfect partners for demanding workgroups that need to print colour, print fast and print smart.

Save time and money by printing in-house

Versatile in-house printing that reduces your costs

Make an impact with these A4 desktop colour printers. You can print sharp, clear and vibrant documents, including business cards, banners and CD/DVD labels, in High Definition colour, on a range of different media weights and sizes.

Save time, money and hassle by being in control of what you print, without having to rely on a high street print shop. Produce the highest quality professional quality documents efficiently and cost effectively when you need them, providing you complete flexibility whilst improving lead times and reducing wastage.

Smarter printing solutions from OKI

OKI provides a suite of software, offering added functionality, control and efficiencies for your business.

Labels

Template Manager

Create and print many types of business stationery and promotional material in-house:

- brochures
- address labels
- business cards
- CD/DVD labels
- large banners (up to 1320mm length)

PrintSuperVision

For the management and control of networked printers and MFPs:

- manage devices and troubleshoot any problems
- monitor which printers require new toners before they run out
- limit user intervention maintaining productivity workflow
- provide complete control and visibility of all printers across your network

Print Job Accounting

Provides visibility and control of your organisation's print spend:

- visibility and control of print usage within your business
- restrict access to individuals and or groups
- manage printing within defined cost limits
- create reports on volume, paper size, media type and consumables usage

Visit www.oki.co.uk/support to download this suite of software

Printing while on the move

OKI brings mobile printing to the workplace through innovation and technology. Many of our products, including the A4 colour desktop range, are now compatible with mobile printing applications allowing you to print directly from your mobile device over wireless networks.

Using readily available software and apps, such as ePrint, and Cortado Workplace, you or your visiting client can now print directly from an iPad, iPhone or smartphone to OKI's high definition printing devices, great for printing documents wherever you are without the need to connect to a PC or Mac. For further information on mobile printing visit our web pages www.oki.co.uk/mobileprinting

Improving efficiency and reducing environmental impact

The OKI A4 colour desktop range is one of the most efficient ranges of printers available on the market, exceeding current efficiency standards.

These outstanding devices have many features that reduce your impact upon the environment, whilst also reducing your on-going costs. Deep Sleep mode automatically reduces power consumption to as little as 1.5W when the unit is not printing whilst Auto-Off mode turns power off completely after longer periods of non-use.

Reducing power consumption

- Based on LED technology that inherently consumes less energy
- **Eco mode** – improves throughput performance and reduces energy consumption
- **Deep Sleep mode** – reduces energy consumption to <2.5W
- **Auto-Off mode** – automatically powers off the unit after periods of non-use

Duplex printing as standard

- Reduces paper usage

Reducing toner usage

- **Toner Save function** – reduces the amount of toner used when printing draft or internal documents
- OKI offers customers a free consumables recycling programme. Currently 97% of all materials returned through the scheme are recycled

A printer to suit any small to medium sized business or workgroup

The C511 and C531 offer outstanding functionality and print quality to small and medium sized businesses and workgroups. Feature driven, this portfolio of printers offer lower cost of ownership, reducing your ongoing costs whilst providing fast and efficient operation.

C511dn – For small to medium sized businesses or busy workgroups printing day-to-day business documents

- 1 to 20 users
- 26ppm colour/30ppm mono print speeds
- Host-based printer language
- Optional 2nd paper tray (530 sheets)
- Optional free standing cabinet
- Up to 5k colour and 7k mono toner cartridges

C531dn – For small to medium sized businesses with flexible platform support and optional secure print

- 1 to 20 users
- 26ppm colour/30ppm mono print speeds
- PCL and PS printer languages
- Optional 2nd paper tray (530 sheets)
- Optional free standing cabinet
- Up to 5k colour and 7k mono toner cartridges
- Optional SDHC memory provides secure print to protect valuable data

What can you do with a C500 Series?

Benefit from the class leading performance of these versatile A4 colour printers.

- Small businesses**
 Print everyday documents and get creative by producing sales and marketing literature in-house
- Estate agencies**
 Take advantage of the vibrant colour output to produce new property details, window display cards and customer mailings on demand
- Schools and Colleges**
 Use for everyday printing of letters and reports as well as producing school notices, colourful timetables and banners
- Car Dealerships**
 Print correspondence and produce everything from reports to business cards, used car lists and promotion banners for the showroom
- Events Management**
 Produce all the documents event planning generates, including invitations, brochures, place tags, ID cards, event maps and wrist bands
- Hotel Business Centre**
 Stand out from the rest and bring creative full colour support to the business traveller

Business Printing Specialists

OKI's printer division is a global business-to-business brand dedicated to creating cost effective, professional in-house printing solutions which are designed to increase the efficiency of today's and tomorrow's businesses and their workflows. As pioneers in innovative print technologies from digital LED to High Definition Colour, we have a portfolio of award winning products and solutions enabling businesses to achieve both image focused, vibrant, quality print communications and budget flexibility.

OKI presents a full range of A3 and A4 colour and mono printers and MFPs, for workgroups and businesses of all sizes with superior media-handling capabilities. In addition our fax, POS and dot matrix printers complete our range of print solutions. These best-in-class products are designed to be easy to use making the job of in-house print easier.

Considering the Environment

As part of the OKI Group's Charter of Corporate Conduct, OKI continually reviews its efforts to provide environmentally sound solutions to its customers:

- Our products are designed and manufactured with reducing the impact on the environment in mind.
- Increasing the amount of our hardware products and consumables that are recycled is one of our strategic objectives.
- We feel responsible for conducting our business in an environmentally sound manner, contributing to conservation and activities within our local communities.

OKI's Green Leaf symbol, found on all products and packaging, represents our total commitment to collection, recycling and environmental processes.

CarbonZero Manufacturing Facilities

OKI's three main production facilities, located in Ayutthaya (Thailand), Shenzhen (China) and Fukushima (Japan), which manufacture printers and MFPs for the company's European and broader global markets have been made "CarbonZero" in a bid to slow down global climate change. This initiative is in accordance with our commitment to reduce total Greenhouse Gas Emissions, with an emissions reduction target of 6 per cent by the end of 2012. This target is in line with the United Nations climate change objectives. We have invested in a range of carbon offsetting projects through CO₂ balance, to offset these factories' carbon emissions making them 'CarbonZero'.

20 years of LED Technology

OKI pioneered the development of digital LED technology in printers over 20 years ago. This innovation delivers High Definition printing – for more accurate, striking printed documents. Thanks to this digital LED technology, our printers are compact, environmentally friendly and energy efficient, using significantly less raw materials in the manufacturing process and consuming less energy. LED print heads have no moving parts, making our LED printers robust and ultra reliable.

Energy Star

Our printers and MFPs have earned the Energy Star by helping to eliminate energy waste through particularly energy efficient designs. They use less energy to perform regular tasks. When not in use, they automatically enter a powersave mode and product features such as, duplex printing, further reduce the wasting of energy and paper resources.

3-Year On-Site Warranty

Our devices are manufactured to the highest standards of quality and technology, which has been confirmed by independent tests. We are so convinced of the high quality of our products that we are offering you an extension of the standard warranty period to 3 years at no extra cost to you. Simply register your product within 30 days of purchase. For further information please visit: WWW.OKI.CO.UK/WARRANTY

High Definition Color

High Definition Color is OKI's own unique set of market defining hardware and software technologies. Together, these components deliver unsurpassed colour printing simply, intelligently, and with perfect results.
