

AG352UCG

35

(88.98) LCD MONITOR

The AOC AGON AG352UCG is an UltraWide 35" curved gaming monitor that offers a highly immersive gaming experience, thanks to a small 2000 mm curvature radius and a 1440p resolution. NVIDIA G-SYNC technology and a 100 Hz refresh rate allow for smooth and responsive gameplay without tearing, stuttering or input lag.

100Hz Refresh Rate

Make the most of the graphical output of your PC with a monitor that can handle it: 100Hz translates high GPU framerates into a smooth and responsive gameplay experience. Unleash your reflexes and stay AGON, where double the industry standard refresh rate is just par for the course.

G Sync

NVIDIA®G-SYNC™ display technology delivers the smoothest and most breathtaking gaming experience on offer. G-SYNC™ synchronizes the monitor's refresh rate to the GPU in your NVIDIA-powered PC, eliminating screen tearing and minimizing display stutter and input lag. Scenes appear instantly, while objects look sharper and more vibrant.

WQHD Resolution

With 3440 x 1440 resolution, Wide Quad HD (WQHD) offers superior picture quality and crisp imagery that reveals every detail. The widescreen 21:9 aspect ratio is perfect for watching movies in an expansive format or immersing yourself in the latest game, plus it offers more space when it's time to work. True 8-bit color provides a broad color palette for vibrant, natural-looking images.

Curved screen

Immerse yourself into virtual worlds with AOC's curved gaming displays. Curved displays with an aggressive 1800 mm or more subtle 2000 mm radius put you in your characters' eyes, with the display covering your whole peripheral vision. In 16:9 or 21:9 aspect ratio, curved gaming displays bring futuristic design, comfortable viewing and immersion together.

In 16:9 or 21:9 aspect ratio, curved gaming displays bring futuristic design, comfortable viewing and immersion together.

Lowblue Light

AOC Lowblue Light protects you from harmful blue light which, during long sessions, has been shown to cause eye strain, headaches, and sleeping disorders. Our Lowblue Light feature reduces the harmful wavelengths emitted without sacrificing color composition, setting the experience free from the worry of eye damage.

Screen Details

Color	Black/Silver
