

# Expression Premium XP-530

The XP-530 is ideal for those looking to produce outstanding photos and text documents in the home. With individual inks, users will only ever need to replace the colour used, helping to save on costs. It's versatile too; Epson Connect offers a whole suite of mobile printing options. Featuring a colour LCD screen, it makes producing a range of high-quality documents and photos easy.

## Best of both worlds

Create outstanding glossy photos and crisp, clear text documents with the new five-colour Claria Premium dye and pigment ink-set. Photographs will be crystal clear with vibrant colours and deep, rich blacks thanks to the addition of a Photo Black ink cartridge. The use of individual ink cartridges means only the colour used need to be replaced to help save on ink costs.

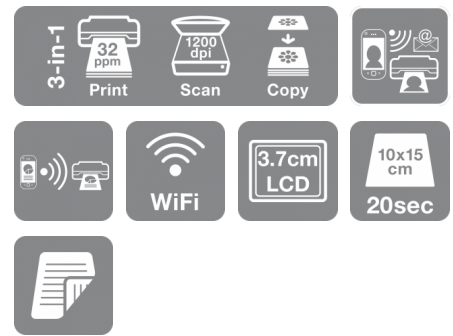

## Mobile printing

Whether using a smartphone or tablet, the iPrint app<sup>1</sup> can be downloaded to a range of devices for truly wireless printing and scanning. The possibilities don't end there and with Epson Email Print<sup>1</sup>, it is possible to print from anywhere in the world<sup>1</sup> by simply emailing documents and photos directly to the printer. For creative-minded people, the Creative Print<sup>1</sup> app can access Facebook photos, create custom greeting cards and stationery, and even turn photos into colouring book templates. For added versatility, Wi-Fi Direct allows easy printing from compatible wireless devices without the need for a network connection.

## Easy to use features

For maximum control, the XP-530 comes with a tilting control panel and 3.7cm LCD screen for easy navigation. Paper can be easily loaded and replaced thanks to a paper tray at the front, while fast, double-sided printing saves time and money. Users can also simply slot in a memory card and follow the helpful menu prompts to print without a PC.
