

# PDS241

**23.8**  
(60.5) LCD MONITOR

Designed by Studio F. A. Porsche, the AOC PDS241 boasts a 24" AH-IPS panel, a mere 5.2 mm thickness and a modular design, a sturdy stand with internal cable management.

Frameless

LowBlue

**IPS**

IPS

## Frameless Design

3-sides frameless design of the monitor lets the user focus on the vivid display, and onlookers will enjoy the sleek and modern look from every angle.

## IPS Panel

No matter if you are viewing photos, videos, a magazine layout in InDesign or playing your favourite game – we want your content to look excellent from whatever angle you are seeing it. That is why this display comes with an advanced IPS panel, which produces brilliant colours and offers wide viewing angles. This way, images always look excellent and accurate, regardless from which angle you – or your friends and co-workers sitting or standing next to you – are looking at the screen.

## Cable Management

The power and display signals run through the twisted metal asymmetrical stand.

## Design

Bringing contemporary and functional design to your desk, these displays look like no other monitor on the market. With only 5.2 mm thickness, they are slimmer than your smartphone.

## Slim Design

Sometimes, less is more: With its minimalistic, slim profile, this monitor seamlessly blends into your working environment instead of obstructing your vision with a bulky casing. Enjoy more space on your desk, easy transportation and an appealing design with this slick, lightweight display.
