

## CONGRATULATIONS!

You are now the proud owner of a ROCCAT® Isku+ Force FX! The Isku+ Force FX is an advanced RGB gaming keyboard that features a pressure-sensitive key zone. Perfect for gamers who demand that heightened level of control, its QWEASD keys are analog. Boasting a unique, smudge-resistant surface, an extra-large wrist rest and full RGB illumination adjustable in several modes, this is a complete gaming keyboard like no other.

The Isku+ Force FX is control, intensified!

### SMUDGE RESISTANT

A unique surface that resists sweat and smudges ensures your keyboard continues to look great. The result is less maintenance and more gaming!

### RGB ILLUMINATION

An advanced multi-color lighting system provides an additional level of customization. Fully adjustable in several modes and brightness levels.

### ROCCAT® EASY-SHIFT[+]™

Access up to 36 powerful functions with Easy-Shift[+]™ button duplicator technology. Also features eight configurable media and hotkeys.

## EASY-SHIFT[+]™ DUPLICATOR

3 MACRO KEY ZONES FOR EASY KEY DUPLICATION

Use the Easy-Shift[+]™ key (assignable to Caps Lock, M1-M5 and T1-T3) to program 2nd level functions on all highlighted keys.

This means you virtually double your macro keys – for easy access to up to 36 powerful functions.

## PRESSURE-SENSITIVE KEY ZONE

The QWEASD keys are the heart of every gamer's keyboard. On the Isku+ Force FX, these keys are pressure-sensitive. The keys are analog and work in three different modes.

In normal mode, the keys work as standard. Turn on smooth steps mode and the keys react to the amount of pressure used, ideal for games requiring thrust and acceleration. The final mode lets you have up to three different functions on one key, such as normal, slow and fast character movement speed – or three totally different functions.

### DE ANLEITUNG

1. Für einen ergonomischeren Stand klappe die Füße an der Unterseite der Tastatur aus.
2. Verbinde den USB-Stecker der ROCCAT® Isku+ Force FX mit einer freien USB-Schnittstelle.
3. Starte deinen Computer neu und stelle eine Verbindung zum Internet her.
