

Epson EB-1761W

DATASHEET

An ultra-mobile WXGA projector with Epson's 3LCD technology, 2,600 lumens white and Colour Light Output, plus a host of easy set-up features.

Perfect for presenters that travel, this ultra-mobile and ultra-slim WXGA projector is bright enough that presenters can leave the lights on so audiences can comfortably take notes.

Ultra-mobile, extra-flat: With a lightweight, slimline design, presenting on the move has never been easier. Weighing just 1.7kg, this is the ideal projector for anyone travelling to meetings.

First-class picture quality: Audiences will enjoy perfect picture quality, natural colours and brightness of 2,600 lumens white and Colour Light Output thanks to Epson's 3LCD technology.

Get a wider picture: See more of the presentation with the WXGA resolution. Ideally suited to spreadsheets and data, audiences will see everything displayed on a widescreen computer as this format offers 30% more pixels than XGA.

Speedy start-up: Simple to set up with features such as quick-start and instant-off, slides and images can be aligned and distortion corrected with the projector's automatic vertical and manual horizontal keystone correction.

Enhance your presentation: Control and improve presentations with a host of Easy MP features, including 3-in-1 USB display - compatible with Macs as well as PCs - and USB PC-free functionality.

Go wireless: With the option of high-speed Wi-Fi functionality, setting up a presentation is a smooth, simple process minus the bother of cables.

KEY FEATURES

- Extra-flat design - Weighs just 1.7kg
- Project in daylight - 2,600 lumens white and CLO
- Bigger picture - Widescreen WXGA resolution
- 3LCD technology - For exceptional image quality
- 3-in-1 USB display - Manages image, sound and remote
